

a
matter of
balance!

We'll match the men and women of CARBIDE against any group when it comes to working spirit. Their continuing efforts are one reason CARBIDE is the leader in its field of synthetic organic chemicals.

But Carbiders—like everyone else—need a change, a chance to relax away from their jobs.

California offers uncounted opportunities for people to make rewarding, worthwhile use of their spare time. At CARBIDE there's a recreation program that supplements the educational, entertainment, and athletic opportunities available to every Californian.

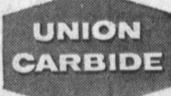

A large number of men and women at CARBIDE participate in the plant bowling leagues. Many of the men play baseball, basketball, and softball. A hunting and fishing club is available to sportsmen.

Each year there are a number of events, including a picnic, dances, and a children's Christmas party.

These and other activities help Carbiders make their free hours more enjoyable. They're another reason why CARBIDE is more than just "a good place to work."
